

Short Course

Introduction to ORCID and its integration in PANGAEA

Dr. Markus Stocker

MARUM – Center for Marine Environmental Sciences, PANGAEA group

https://www.marum.de/en/Markus_Stocker.html

12 June 2017, MARUM Bremen

Objectives

ORCID provides an identifier that, contrary to your name, distinguishes you from any other researchers. This identifier is increasingly associated with published articles as well as published data, or other research artefacts. In this short course, we will present ORCID and how you can sign-up to obtain an ORCID iD. We will present the ORCID integration in PANGAEA and show how you can link your PANGAEA account with your ORCID iD. The objective is to create awareness for these capabilities among MARUM researchers and thereby increase the number of published data with MARUM co-authors linked to their ORCID iD.

Target group

Postgraduate students, postdoctoral researchers, senior researchers, faculty - specifically people who (have or will) publish data at PANGAEA

Location and Time

MARUM, University of Bremen, Leobener Str. 8, 28359 Bremen, Germany

Room 2070

14.00 – approx. 15.00 hrs. (depending on how many questions the participants have)

Registration

In order to be able to plan the course, we kindly ask you to sign up via the [registration form](#) before 8 June 2016.
