

## MARUM / GLOMAR Specific Knowledge Course

### The role of social sciences in Multilateral Environmental Agreements (MEAs)

Prof. Dr. Anna-Katharina Hornidge, *Leibniz Centre for Tropical Marine Research, ZMT*  
Dr. Till Markus, *Law Faculty, University of Bremen*

12 June 2017, MARUM Bremen

#### Objectives

The course provides insights into the role of science in the development, implementation and effectiveness of multilateral environmental agreements. To this end, it will highlight the need to institutionalise scientific research in international politics and law, introduce marine science studies, and inquire the varying functions of science in the life cycle of multilateral environmental agreements, using ocean and climate change policies as examples. In particular the (potential) role of social sciences, which to date have often been less involved in these processes, will be discussed.

#### Location and Time

MARUM, University of Bremen, Leobener Str. 8, 28359 Bremen, Germany  
Room 2060  
09.00 – 15.00 hrs.
