

## Public Engagement Course

### A Film Studio in your Pocket – Creating Scientific Short Films with a Smartphone

Maike Albrecht

*Journalist, editor and reporter at Radio Bremen / ARD*

10 December 2018

#### Objectives

The course aims to introduce a way of presenting scientific work to a broad audience by visual means. Participants will learn how to create short films about their research using their smartphone and the app *Filmic Pro*.

#### Topics

- Why webvideo? About the power of moving images
- Technical requirements and equipment
- First steps in shooting film with a smartphone
- The right tone: inconspicuous but important
- First steps at post production:
  - How to tell a story via webvideo?
  - tools, editing, export
- Ethical issues

#### Methods

Basic information given by handouts and presentation

Practical tutorials (filming)

#### Target Group

Marine scientists who are interested in learning how to produce short films of their scientific work.

**Access to this course is limited to people who agree to apply what they learned in the course and produce a film that can be published on the MARUM web page. The film must be submitted within 6 months after the course, i.e. until 10 June 2019.**

## Early Career Researcher Support Programme

---

### Prerequisite

**Participants must bring a smartphone with the app *Filmic Pro* installed on it.** The app is available from the Apple and Google app stores for approx.. 16 €. Please note that the costs cannot be refunded since the app is a personal benefit.

If at hand, participants should bring a tripod, monopod or selfie-stick and microphones for their smartphone (e.g. earplugs with integrated microphone).

### Location and Time

MARUM, University of Bremen, Leobener Str. 8, 28359 Bremen, Germany  
MARUM I (main) building, room 2070

09.00 – 17.00 hrs.
