

Topic of the month:

Preparing CVs for job applications

26 June 2020

13.00 – 14.30

Online via Zoom

Following your PhD project, you will most likely apply for a job, either in science / academia or in the private / public sector, an NGO or similar. The requirements for such CVs are quite different.

In this seminar, we will answer your questions, exchange experiences and ideas and if you like, you can work on your CV during the seminar. So feel free to have your CV on your desk when you join the seminar.

Unfortunately, GLOMAR cannot provide any tea, coffee and cookies for this seminar as we would usually do. Maybe you could prepare a nice drink for yourself before you join the meeting.
