Methods course

Scientific Writing: from "How to start" to "How to publish"

Dr. Carsten Rohr

<https://www.carstenrohr.de/>

29-30 June 2023

09.00 – 17.00 hrs.

Objectives

Publishing your results is the currency in modern science. It might not be the dearest occupation to you, but it is a decisive one and might well play an important role in what your future research opportunities are.

This workshop is most helpful when you have an upcoming text to work on. During the course there are always different exercises in which you will apply the material you have learned to your own text.

Topics

- Developing a clear main message
- Setting priorities in the writing process
- Structure and logical flow of the text
- Creating meaningful graphics
- Memorable introduction and abstract
- Do's and Don'ts of Artificial Intelligence (AI) writing tools
- Developing a daily writing routine
- Efficient communication with co-authors

Methods

different exercises for you to apply the learned material to your own writing

Target Group

PhD students who have enough (analyzed) data to write a paper

Please bring...

... your scientific texts to the course (any published or upcoming papers; maybe your M.Sc. thesis).

Venue

MARUM, University of Bremen, Leobener Str. 8, 28359 Bremen, Germany
MARUM I (main) building, room 2060

Professional Development Programme

The trainer

Carsten Rohr has a doctorate in physics. He already started working as an educator and trainer during his studies and has been working as a freelance trainer ever since he finished his PhD. He has several teaching certificates and has been awarded a prize for innovative teaching. His main teaching focus is on self-organisation for scientists.

Registration

To register for this course, please visit the course web page:

<https://www.marum.de/en/education-career/professional-development/2023/2023-06-29.html>

Please note that your registration will be binding.

The registration deadline for this course is **15 June 2023**.

Any enquiries regarding this event can be addressed to early-career@marum.de.
