

MARUM COASTER

HB- G 473 // DK 8740

Short description of MARUM COASTER

The MARUM COASTER is a robust, weatherproof cabin boat that is suitable for rough water. According to the CE classification, the boat is approved for offshore work with a crew of 6 people. In addition to the skipper/co-skipper seats, there is a fixed workplace in the rear area of the cabin. For the user 12V, 230V, logging PC, LAN switch and 19" slots are available. A complete tarpaulin offers sun/weather protection on the small aft-deck. The MARUM COASTER is extensively equipped in order not only to be "a boat", but also act as a "control base" to enable the use of e.g. small submersible vehicles and the use of larger 230 V sensors.

Another work corner is set up in the bow area. Ideally, 1 person sits here. In this area a sink with fresh water supply and a coffee machine are installed (kitchen) and the separate on-board toilet (small room accessible via a door). The toilet can be used at any time as it is drained into a waste water tank. To use the MARUM COASTER, 2 instructed skippers should always be present (1 mandatory). Ideally, 2-3 additional users are then on board. At slow speed (< 5 knots) the boat typically "yaws" because it has no real keel and Z-drive.

BOAT

NORDSTAR 26"	Radio Call Sign:	DK 8740
Cat.: Offshore B	Reg. No. :	HB- G 473
Length: 8.60 m	Load Capacity:	6 Pers./ 600 kg
Width: 2.80 m	Weight:	4.1 t
Draught: 0.8 m	Speed:	23 kn

MOTOR

Motor: VOLVO D3 / 220 HP	Bow Thruster:	12 V
Fuel: 320 L Gas Oil	Stern Thruster:	24 V
Fresh-W.: 55 l / Cold	Safety:	TOHATSU AB, Regular (10 HP)
Waste-W.: 55 l / Toilette	Heating:	Motor + add. Heating (Gas Oil)
Fuel Consumption approx. 15 – 45 l/h // depending on speed		

SKIPPER-Tools

- 1st: 12" SeaChart Plotter, Sat-Compass, GPS, AIS, Autopilot, SONAR (Ahead), Tri-LOG (Depth, Speed, Temperature), Volvo 9" Motor Display
- 2nd: 12" + 9" SeaChart Plotter, 4G Radar, SONAR (Depth, Bottom, Fish-Finder, Side-Scan)

SAFETY Tools

RF-Radio (MMSI, 211 710 620) // RF-Inshore (ATIS, 921 111 8740)
Emergency Button // DSC (Digital Selective Call), AIS_B, RF-NAVTEXT, RADAR-Reflector, EPIRB RF-Beacon (SARSAT), LED-FLASHER, 6x life west
SEAGO SEAMASTER, life-raft (6 Pers.)

TECHNICAL

- 1st Voltage: 12V, 24 V (AGM, Li-Ion)
2nd Voltage: 4x 230 V@10A // MAX. 3.5 kW (Converter)
3rd Base/Main: 230V (Harbor)
