### MARUM Supervision Workshop

#### Dealing with the expectations and needs of the current generation of ECR

**22 June 2023**

14.00 – 17.00

#### Objectives of the workshop series

MARUM aims to provide excellent conditions for the education and professional development of early career researchers (ECR). To ensure a high quality of supervision, we make sure to support those who are responsible (“train the trainer”).

The MARUM Supervision Workshops address everyone at MARUM who is involved in the supervision and/or mentoring of ECR. The main objective of the workshops is to ensure high quality in the supervision of ECR and to develop best-practice approaches. In addition, the workshops provide an important opportunity for exchange among the community of supervisors and mentors.

#### Objectives of this particular workshop

In this workshop, we would like to exchange our experiences with the needs and demands of the current generation of ECR and discuss our (daily) challenges in their supervision.

In this context, points of discussion can be, for example, the thesis committee meetings, funding proposals, mental health issues, religious sensitivities and others.

#### Target group

MARUM members who are in the role of official (main) supervisor of early career researchers

#### Location

MARUM I, room 2060

#### Registration

In order to be able to plan the resources for the workshop, we kindly ask you to send an e-mail to Tina Klose (cklose@marum.de) if you would like to participate.
