

Joint Course Programme

EUROPROX European Graduate College Proxies in Earth History

GLOMAR Bremen International Graduate School for Marine Sciences

MARUM Excellence cluster "The Ocean in the Earth System"

NEBROC Netherlands Bremen Oceanography Cooperation

NSG Netherlands Research School for Sedimentary Geology

POLMAR Helmholtz Graduate School for Polar and Marine Research

MARUM / GLOMAR Expert Course:**An Introduction to Ocean Data View (ODV)**

Dr. Reiner Schlitzer

Alfred Wegener Institute, Bremerhaven

21 March 2011, MARUM, Bremen

Objectives

This beginner's course will demonstrate general concepts and capabilities of the data analysis and visualization software Ocean Data View (ODV, <http://odv.awi.de/>). The course consists of overview presentations, guided software usage sessions, and hands-on exercise work. Students will learn how to download and import important oceanographic data sets, and will then use these datasets to address scientific questions and produce different kinds of graphics output. Students are invited to bring their own data (in spreadsheet-like formats) and may use these data for import and analysis.

Location

MARUM, University of Bremen, 28359 Bremen, Germany, Room 2070

Time

09.00 – 17.00
