

2nd Young Scientist Excellence Cluster Conference on Marine and Climate Research: Perspectives from Natural and Social Sciences

Bremen, October 4-5, 2011

Organized by and for PhD students and PostDocs from the three Clusters of Excellence from Bremen (MARUM), Kiel (Future Ocean), and Hamburg (CliSAP), as well as associated institutes.

This conference aims to bring together early career scientists to present and discuss their own research in an interested and multidisciplinary environment and improve our understanding of the integrated nature of the ocean - climate - society system.
