

## MARUM / GLOMAR Expert Course:

### Carbonate Sedimentology – a palaeoecological perspective

Dr. Julien Michel

*GLOMAR – Bremen International Graduate School for Marine Sciences*

*MARUM – Center for Marine Environmental Sciences*

7 May 2014, MARUM, Bremen

#### Objectives

The course aims at presenting different carbonate-producing organisms, the carbonate grain associations and types of platforms associated to these carbonate productions. The controlling parameters of carbonate production and sedimentation will be described that will lead to discuss the different carbonate grain association models and their limitations for palaeoenvironmental reconstructions.

**The topics discussed in the course are not fixed yet; any interest or suggestion is very welcome!**

#### Time

09.00 – 17.00

#### Location

MARUM, University of Bremen, 28359 Bremen, Germany  
Room 2060
